What's New in Version 1.3

Introducing Subtitles! Now you can follow the action when watching foreign language content, or when listening to the audio is not possible, such as when working out, or in loud environments.

Full support for iOS 4.3.3 and 4.2.8 (Verizon).

NOTE – not all content has subtitles.

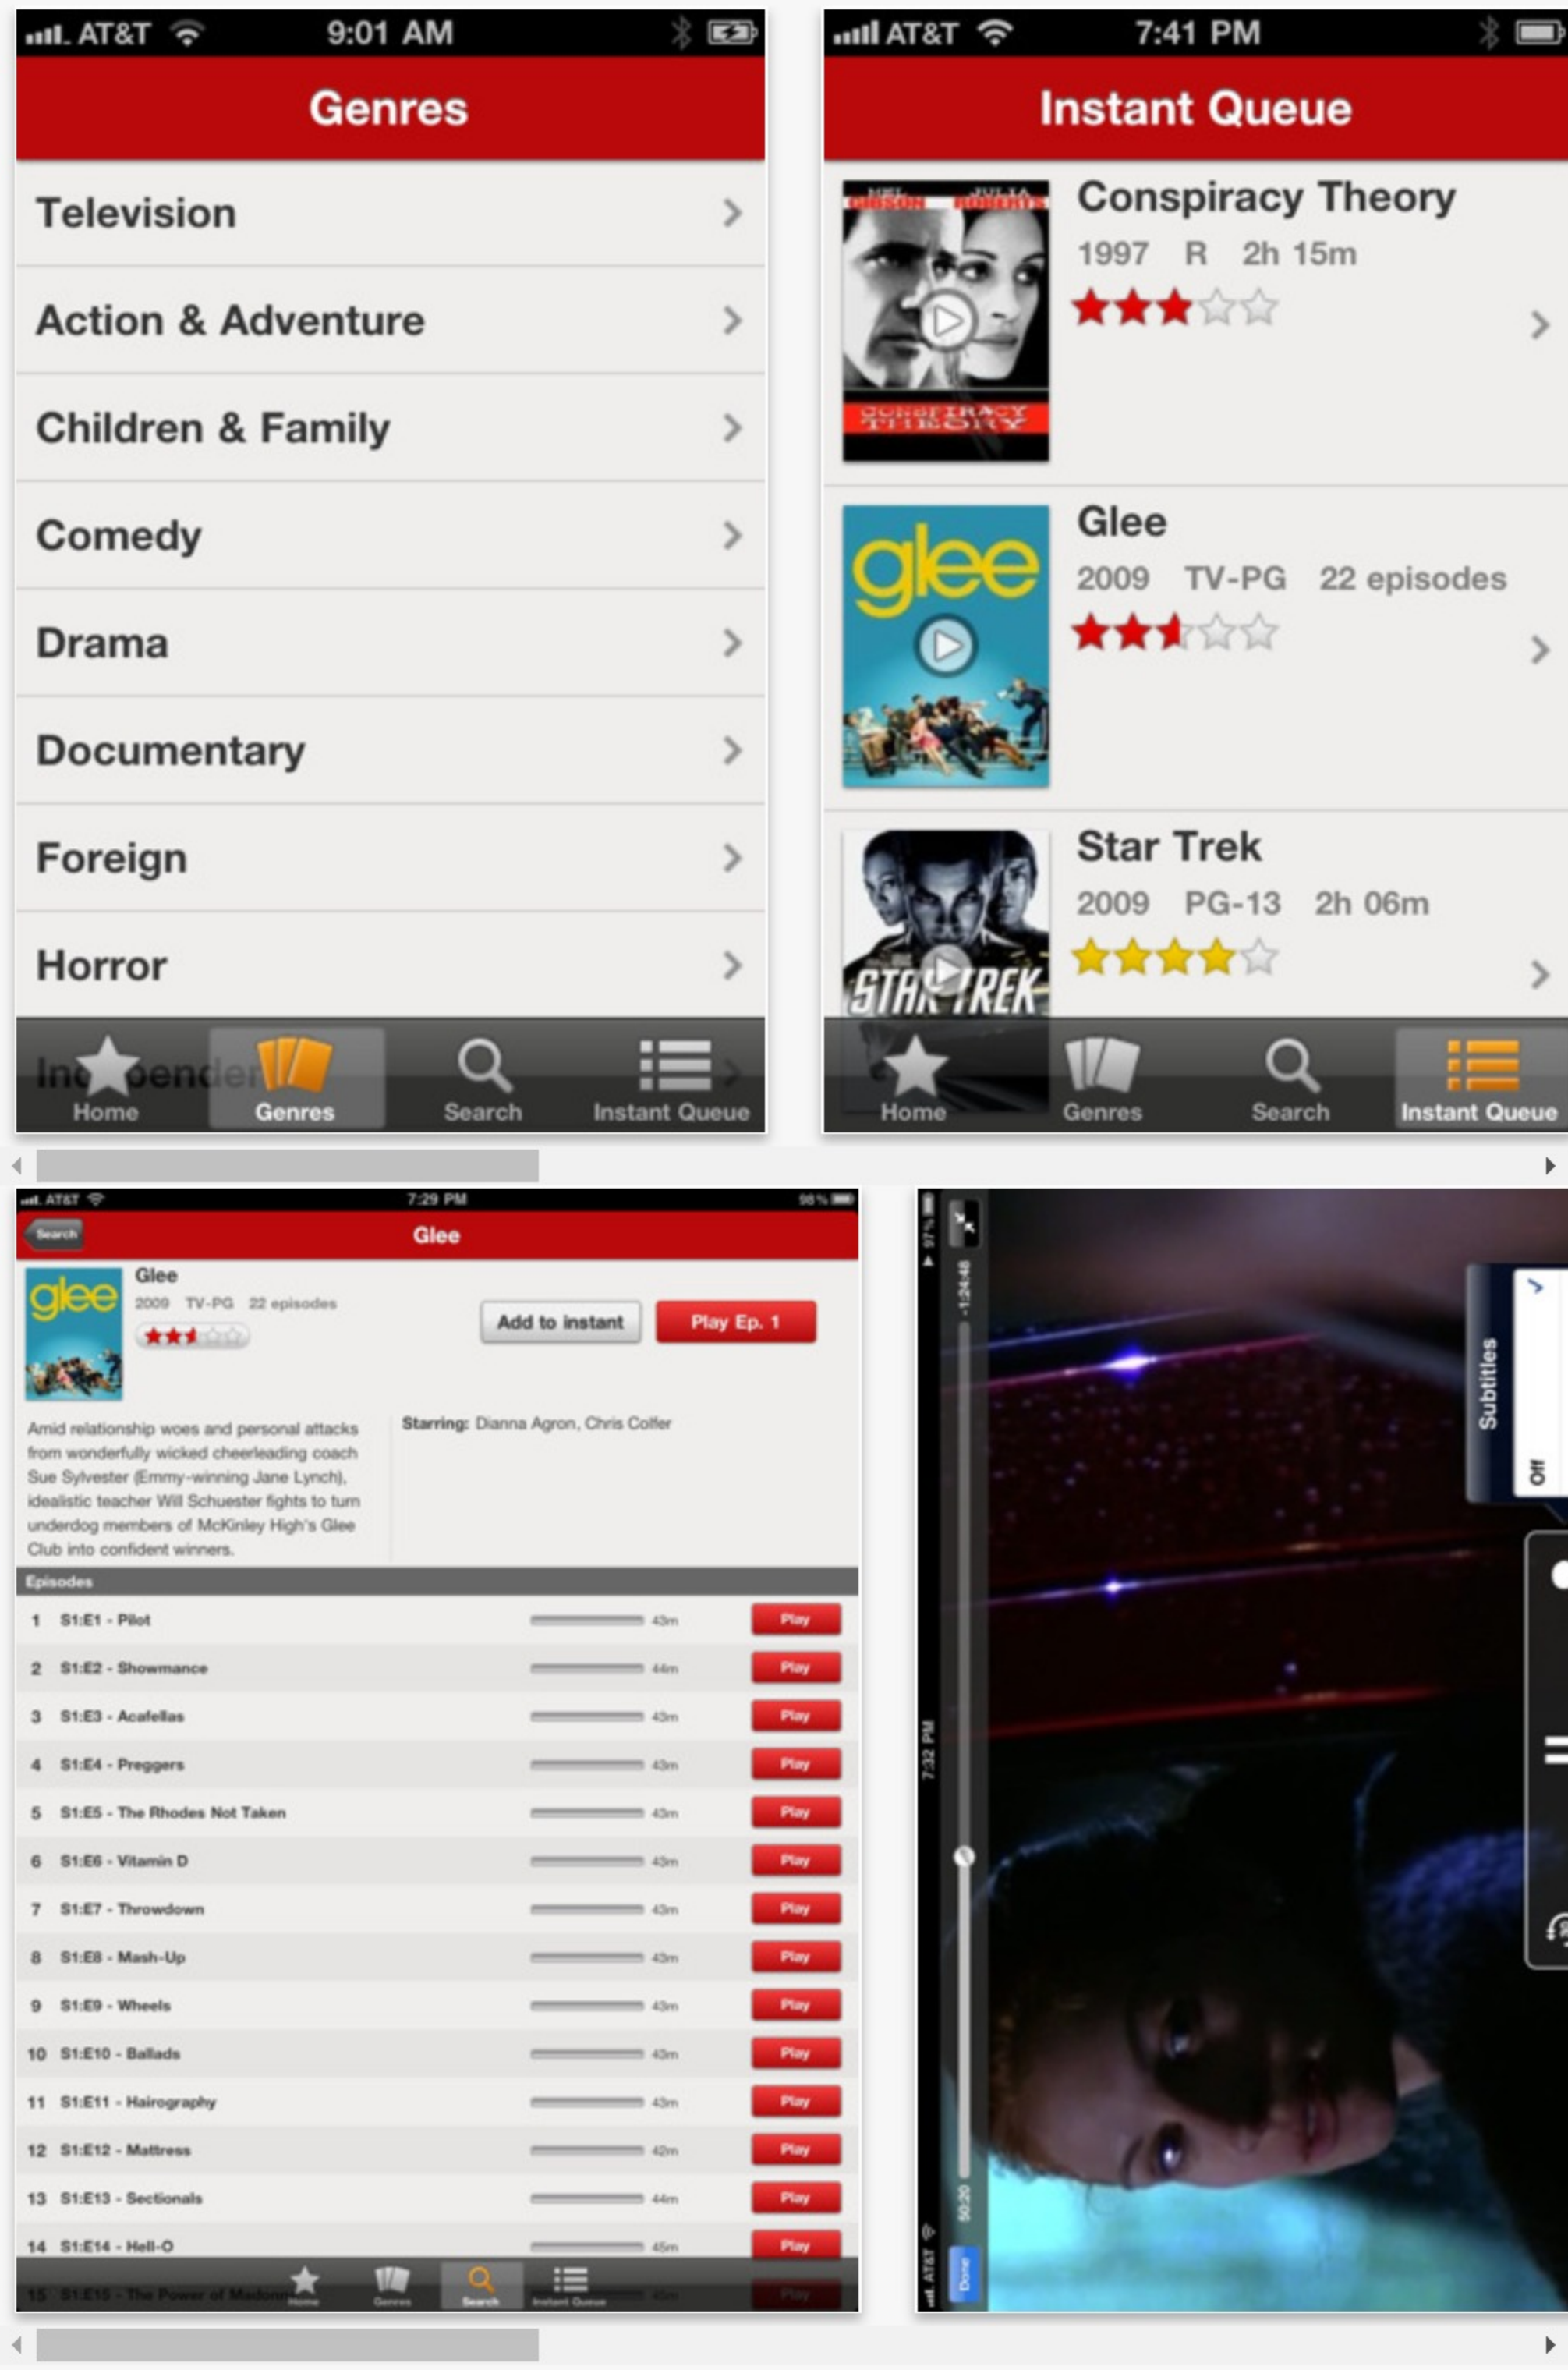

If subtitles are available, the caption icon will appear while the movie is playing. Pressing this icon will bring up a list of available languages for subtitles for that content.
