Description

Stream millions of tracks from thousands of albums and artists to your iPhone, iPod Touch and iPad. Take your existing Spotify playlists with you on the go – listen to them during your commute, in the gym or on a flight. With ‘Offline mode’ you can listen even when no connection is available. Wirelessly sync your local files to your phone to merge your catalogue with ours, no cables required! Download and get started directly from your mobile.

- Wirelessly sync your local files to your phone
- Create and sync playlists
- Receive music from friends via the inbox
- Star your favourite tracks
- Scrobble tracks to Last.fm

Spotify Premium provides you with:

- Access to over 13 million tracks from our catalogue
- Offline playlists – listen to music with no mobile connection and avoid using your data allowance

Customer Reviews

Great Service! Will get better! ★★★
by Erving Velez

The service and the idea behind it is great. I love the Mac app and hope it gets better. Twitter integration would be great in the future. Radio, Billboard charts from past and present, a better way to find user profiles and a better startup page on the app for recommendations and hot tracks. 5 Stars! Please make an iPad optimized version!!!!
